

Unlock More Locations & Inventory

Get the supply to meet the demand. Ocra gives customer demand channels access to 100% of the operator's available ecommerce inventory.

Remove the revenue ceiling.

Operators use Ocra to distribute all of their ecommerce inventory through multiple customer demand channels at once. So if you can sell it first, it's yours.

Decrease supply acquisition costs.

Don't spend your team's time on calling operators to onboard a few more spots. Instead, keep them focused on maximizing revenue.

Give your customers more choices.

Attract, convert, and retain more customers by offering them a wider variety of parking locations and facility types.

Increase total addressable market.

More inventory means more opportunity. Instantly unlock 100% of the spaces that operators make available on Ocra.

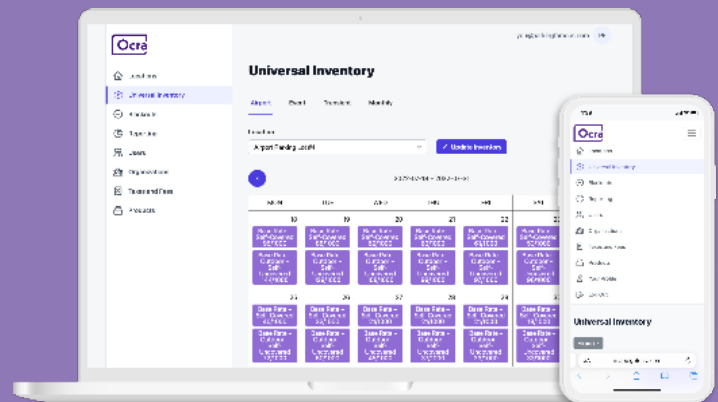

Ocra partners with leading operators & asset owners, including:

Let's craft a custom partnership.

Don't have the infrastructure to build API integrations with us? No problem, we'll work with you to execute in a flexible way.

Get started: info@getocra.com / 847-644-2827

Parking operators use Ocra to manage rates, inventory, blackouts, and reporting across all of their demand channels, all in one place. See how it works: <https://getocra.com>
