

Centralized Management Platform For Parking Operators

Spend less time managing your current customer demand channels and painlessly scale with new ones.

Universal Inventory

Pool all of your inventory across infinite channels without risk of overselling.

Rate Management

Configure rates across all your customer demand channels with just one click.

Blackout Control

Instantly flip locations and products on and off, individually or in bulk.

Advanced Permissioning

Set read/write permissions down to the location level for unlimited users.

Centralized Reporting

Get an instantaneous view of transaction data across all of your demand channels.

Unlimited User Seats

Add users at no extra cost. As your program grows, we grow along with you.

Ocra officially integrates with leading customer demand channels, including:

AIRPORT PARKING
RESERVATIONS.COM
