

FOR TECHNOLOGY COMPANIES

Extend your reach with Ocra's APIs.

Expand your functionality, and use our APIs to communicate with other companies instead of building your own from scratch.

Universal Inventory

Blackout Control

Centralized Reporting

Rate Management

OPTION #1

Embed and white label

- Plug 'n' play the entire Ocra platform
- Limited dev required (we hand you the code, you drop it in)
- Customized with your brand, so it merges seamlessly with your UI

OPTION #2:

Use Ocra rails

- Pick solutions you want à la carte
- Design your own user interface
- All Ocra solutions can be managed using our APIs, so it's easy to add new functionality to your platform

Ocra is the **most robust middleware** in the parking industry.
